

K-Love serves me as a resident of my community by being a station that supports my values and beliefs. It also allows me to let my children listen to radio. It is encouraging in my daily life and I don't wish to lose that. The way it would affect others would be the same and there are so many people who come together as a result of this station. There is so little positive in our world today that we need this station. Instead of promoting anger and violence it promotes togetherness and is encouraging. All of us need to be encouraged in life so please do not make it harder for K-Love to do that.
